— FOOD PVT. LTD. —

Every Time You Buy Organic,  
You're Persuading More  
Farmers To Grow Organic.

## About us

Agronic Food Pvt. Ltd. is a globally trusted certified organic food company, set-up to meet the growing demand for organic food products. We provide pure, great-tasting organic grains, spices, herbs, cereals, oils and much more that consumers rely on as the cornerstone of their nutritional health. We strongly believe organic food is an essential choice for personal and environmental health.

Agronic Food is built on the reputation of quality, reliability, innovation and trust. We work with hundreds of families of farmers who cultivate thousands of acres of land in India with organically grown crops. Our mission is to be the best in all that we do, providing superior products and services to our customers and the opportunity of a better future for our farmers.

## Reliable Service and Delivery

We believe in investing in right technology, equipment and people, which means we can offer you friendly, reliable and efficient services from the time you place your order until the moment it arrives at your door.

## Full Traceability

Just like you and your customers we care about where our food comes from and how it has been produced. That's why we offer complete traceability on all our products, from farm to store.

## Quality

Producing safe, high-quality, and nourishing food is fundamental to our company's very existence. Food safety starts on the farm, where we have rigorous systems in place to cultivate organic products. It continues at the processing plants, where we have strict in-house quality control system from designing, cleaning, processing and packaging to final shipment of the products. Our in-house laboratory is fully equipped to test on all physical, microbial and chemical parameters, and under the direct supervision of our dedicated team of professionals, which guarantees 100% organic food. Our products also undergo CO2 fumigation and steam sterilization under expert supervision and in a highly controlled environment. Besides, we also offer pesticide and micro-biological testing by renowned labs like Eurofin SGS, Spice Board and Microchem.

We guarantee that our products will stand up to the toughest standards of the organic food industry and will meet the highest technical and food safety standards.

## Certified and Standardized

Acquiring organic & food safety certification from numerous regulatory bodies is a big achievement in itself. It's reserved for those whose commitment to environment is measureable and continuously proved year after year. These certifications confirm that the farm and food processing facility complies with the organic regulations set by respective authorities.

India Organic is a certification mark for organically farmed products manufactured in India. The certification mark certifies that an organic food product conforms to the National Standards for Organic Products established in 2000.

The British Retail Consortium (BRC) is a standard designed as "total quality management" program, and includes both food safety requirements and quality requirements which food manufacturers must meet in order to be certified.

The USDA National Organic Program regulates all the organic agriculture in USA. To export the goods to USA ones has to strictly follow the USDA standards.

ISO is an independent, non governmental international organization with a membership of 162 national standards bodies.

EU, in 2007, the European Council of Agricultural Ministers agreed on a new Council Regulation setting out the principles, aims and overarching rules of organic production and defining how organic products were to be labeled.

Hazard analysis and critical control points or HACCP is a systematic preventive approach to food safety from biological, chemical, and physical hazards in production processes that can cause the finished product to be unsafe, and designs measurements to reduce these risks to a safe level.

The purpose of the Canada Organic Regime is to regulate all parties involved in the certification of agricultural organic products and to verify all applicable regulatory requirements, standards and guidance documents are being met.

The Agricultural and Processed Food Products Export Development Authority (APEDA) was established by the Government of India and it is whole and soul body regulating the Organic Food Scenario in India.

ONECERT Asia is a worldwide recognized inspection & certification agency.

Spices Board (Ministry of Commerce and Industry, Government of India) is the flagship organization for the development and worldwide promotion of Indian spices. It is an international link between the Indian exporters and the importers abroad.

The Star K Kosher ensures that the Company's food is kosher, or in other words, fit for consumption by observant Jews. Kosher refers to a religious dietary practice that is rooted in Jewish tradition.

The Food Safety and Standards Authority of India (FSSAI) has been established under Food Safety and Standards Act, 2006 which consolidates various acts & orders that have hitherto handled food.

**GREEN SENSE**  
HARVEST HAPPINESS

## An Organic Food Brand from the House of Agronic Food

A brand that harvest happiness & represent an authentic Indian flavor of Organic Food Ingredients. Green Sense has been an outcome of consumer concerns regarding the quality of food. A brand that promises to provide best food from our beautiful nature without any kind of contamination of crops & ensure sustainability.

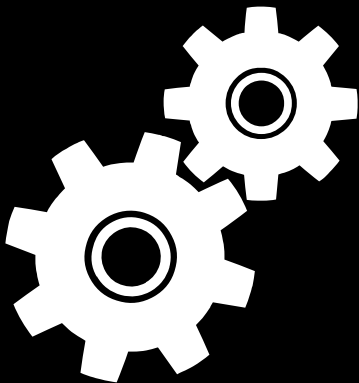

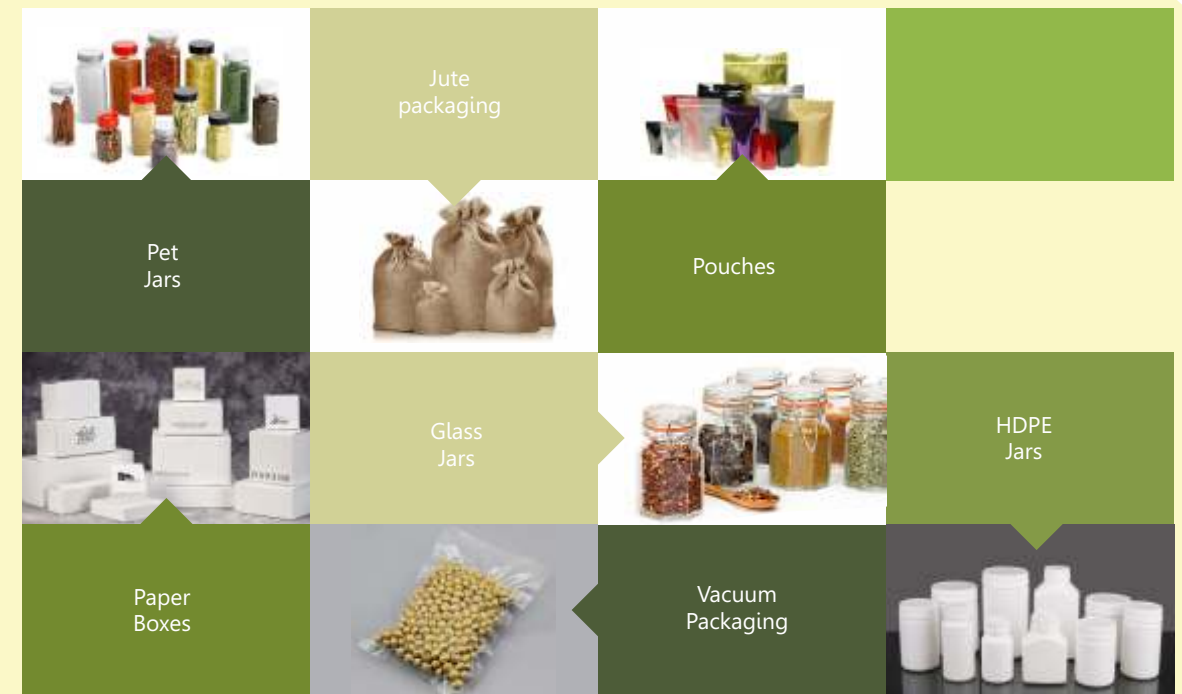

## Giving Back to the Farmers

At Agronic Food Pvt Ltd we are strongly dedicated to the sustainable health & well-being of Our people, Our planet & Our Farmers. Our ingredients are ethically produced & we proudly support Farmers and indigenous communities around the World – all our suppliers are ethically certified. We realized that our farmer's major concern was the Education of their Children. This motivated us for starting an educational drive at Kham Village in Udaipur, Rajasthan. Thus, the formation of a School was led with the strength of around 120 children between the age group of 6-14 years. It Gives us immense pleasure & a sense of fulfillment in nurturing the future of these Children. We feel that our aim of having a positive impact on the society is fulfilled to some extent.

## Customized Packaging – Bulk or Private label

We offer a vast range of flexible packaging options while maintaining the organic integrity of the products. Whether it's placing your own label on our containers or selling products in bulk, where you do your own packaging, in your own containers.

Choose the packaging that is right for your business!

## Private Labeling

Widen your product portfolio by adding our organic products under your brand umbrella, which promotes stronger customer recognition and loyalty. We put your logo on the label, making it your very own organic food. Our packaging and labels are tailored to meet your specifications so that you have control over price, size, package design, and product distribution.

With a strong partner like Agronic food, you have the flexibility to make quick adjustments to your organic product portfolio based on customer's changing preferences.

## Bulk Packaging

We supply all our organic products in bulk quantities across the globe. We ensure that the packaged product is completely protected during transit hazards such as shocks, vibrations, drops and climate hazards.

With Agronic Foods, you can be confident of receiving organic products of highest quality, at a very competitive price and in quantity that you desire. We assure you of our fast, efficient and reliable services at all times.
